## Outpatient healthcare insurance of patients with the substance abuse problems.

**Karel Hampl**

Ordinace AT pro prevenci a léčbu závislostí NsP Mělník

**Key words:**

outpatient healthcare – substance abuse – substitution treatment.

**Abstract:**

History and present stay of Outpatient clinics for prevention and treatment of addictions /OCPT/ are presented. OCPT are interested in the prevention and treatment of patients with alcohol and other drug problems. Psychotherapy, pharmacotherapy and sociotherapy are the main parts of OCPT activity. Separate attention is paid to the substitution treatment. Renew necessity of the special outpatient clinics /OCPT/ network is declared.
